The programme at Morris Park to-day looks first class. Soap bubbles, too, are very pretty when fully expanded by air, but when touched they burst and leave nothing but a few drops of water So It is with Westchester's races. Profuse scratching takes much of the interest out of the events, and big fields, on paper, fade into significance when the bugle calls the horses to the post.

There is only one fixture on the card to-day. This is the Howling Brook Hanlicap, at a mile and a furlong. A good class of horses start, including Leigh & Rose's crack colt Chant. Against him will be pitted John Cooper, Assignee, Peacemaker, Potentate, Dorian, St. Julian, Rubicon, La Joya, Ornus, Our Jack and Aurelian, John Cooper's 123 pounds puts him out of it. The others seem to be well matched. The writer prefers Peacemaker, who seems to be of better class than any one believes. His race yesterday was only a gallop for him, and he should repeat without difficulty.

The Power Ingeniously Applied in

Various Trades. Among the various mechanical operations in which pneumatic power is now

applied with special advantage as com-

pared with ordinary methods, those of

calking, stone cutting, &c., have become

prominent, the economy of time and

labor ir these industries thus gained

Rotary cutting tools driven by com-

plates being very largely done by tools

For ship and boiler work a very in-

and forth motion being given the imple-

genious tool is used, a vibratory back-

ment at the amazing rate of 15,000 strokes
